## Professional Experience

---

### Junior Full Stack Developer

Sep 2025 – Present

*SAS Estetica Solutions Pvt. Ltd.*

*Hyderabad, India*

- Developing a CRM platform for the beauty and wellness industry (spas, salons, skincare clinics).
- Building responsive UI components and implementing dynamic functionality using React.js.
- Integrating REST APIs for appointment booking, vendor logins, and inventory management.
- Implementing form validation workflows using React Hook Form and Yup.
- Working with cross-functional teams to translate product requirements into frontend components.

### Software Trainee Associate

May 2023 – Jan 2025

*KriSanTec Solutions*

*Hyderabad, India*

- Developed user interfaces for 5+ projects using React.js and React Native.
- Integrated APIs to connect frontend and backend systems.
- Built Android applications using React Native with focus on user experience.
- Worked on build configuration and deployment for Android apps.
- Key Projects: Vharvest Dashboard (React dashboard with API integration), Client and Delivery Agent Android Apps (mobile applications with API integration), Opoto React Website and Android App (web and mobile development).
- Used Git for version control and collaborated with team members on code reviews.

### Software Engineer

May 2022 – Jan 2023

*Ideabytes Software Solutions*

*Hyderabad, India*

- Developed JavaScript functions for an IoT project focused on data processing.
- Tested APIs using Postman to ensure proper functionality.
- Worked on the Tank Monitoring IoT Project, implementing real-time data monitoring features.
- Participated in code reviews and contributed to team knowledge sharing.

## Personal Projects

---

### Brand AI – AI-Powered Personal Branding Assistant (MVP) | *Next.js, Supabase, OpenAI API* Full-stack

- Developed a full-stack AI-powered web app that helps users generate and schedule personalized social media content based on their profession, tone, and target audience.
- Integrated Supabase Auth for seamless onboarding and secure data handling.
- Built intelligent workflows using OpenAI API to generate topics and platform-specific templates for Instagram, X, and LinkedIn.
- Designed interactive preview templates with download and copy features for a smooth creator experience.
- Planned n8n webhook integration for automating post scheduling and email workflows.
- Ensured a clean, modular, and scalable architecture using reusable components and consistent UI styling with shadcn/ui and TailwindCSS.

### Law Office Management System | *Next.js, TypeScript, MongoDB*

Full-stack

- Built a dashboard for managing lawyers, cases, and courts.
- Implemented case tracking with past and upcoming hearings.
- Created filtering features for cases by lawyer, court, and date.

### Mylaru Infra | *Next.js, MongoDB*

Full-stack

- Created a marketing website for a construction company with an admin dashboard.
- Used Next.js server-side features for SEO optimization with dynamic meta tags.

## Education

---

### Guru Ghasidas Vishwavidyalaya

*Bachelor of Technology in Electronics and Communication Engineering*

Bilaspur, India

*Graduated: 2018 — GPA: 7.9/10*

## Certifications

---

**AI Generalist Fellowship** – Growthschool (Ongoing)

**Node.js API Masterclass With Express & MongoDB** – Brad Traversy

## Languages

---

**Telugu:** Native   |   **English:** Professional Proficiency   |   **Hindi:** Professional Proficiency
